PROFESSIONAL SUMMARY

Creative Designer with four years of professional experience and a multidisciplinary background in digital and visual communication. Works across web design (HTML, CSS, SEO, AEO, GEO, performance and accessibility), editorial design and layout, 2D/3D animation, motion design and audiovisual production.

Currently works at Martins Distribuicoes as a Web Designer, creating enriched product content for B2C and B2B, processing product carousel imagery, and improving the design team workflow within Digital Growth Product Management. Since 2024, this work has included approximately 20,000 image treatments. Responsibilities also include improving HTML structure, introducing AI tools (Claude, OpenAI and Gemini) into the workflow, and producing quality-control documentation with a focus on image processing.

Advanced user of Adobe Creative Cloud, with more than 12 professional courses in the field. Additional knowledge includes search optimization, UX/UI, audio processing and process management.
